Examination Regulations 2026

1 Examination Schedule

Final examinations take place in Weeks 17 and 18 of each semester. The examination timetable is published on the Student Portal at least four weeks before the first paper.

Students must check their own timetable, seat number and venue. Examinations are not rescheduled because of personal travel plans or clashes with part-time work.

2 Admission to the Examination Hall

Candidates must arrive at the venue at least 15 minutes before the paper begins and must bring their student card. A candidate without a student card must obtain a temporary examination pass from the Examination Office before the paper starts.

Candidates who arrive more than 30 minutes after the start of the paper are not admitted. No candidate may leave the hall during the first 30 minutes or the last 15 minutes of a paper.

3 Permitted and Prohibited Items

Only the following items may be brought to the candidate's desk:

- Pens, pencils, erasers, rulers and a clear pencil case.
- A calculator from the approved list, with its cover removed. Programmable and graphing calculators are not allowed unless the paper states otherwise.
- A clear bottle of water without a label.

Mobile phones, smart watches, earbuds and other electronic devices must be switched off and placed in the candidate's bag at the front of the hall. Having a device on one's person during a paper is treated as attempted cheating, whether or not the device was used.

4 Absence from an Examination

A candidate who is absent from a final examination receives zero marks for that paper unless the absence is excused.

To be excused on medical grounds, the candidate must submit a medical certificate through the Student Portal within two working days after the paper. Medical certificates must be issued by a registered medical practitioner and must cover the date of the paper.

A candidate whose absence is excused may sit a make-up examination, normally scheduled within four weeks after the end of the examination period. The make-up paper is graded without any cap on marks.

5 Supplementary Examinations

A student who fails a module with a final mark between 40 and 49 may be offered one supplementary examination for that module. The grade for a module passed through a supplementary examination is capped at D (50 marks).

Supplementary examinations are held in the week after the semester results are released. A student may take supplementary examinations in at most two modules in a semester.

6 Examination Misconduct

Examination misconduct includes copying from another candidate, communicating with anyone other than an invigilator, bringing unauthorised materials and removing an answer script from the hall.

Invigilators will record any suspected misconduct and allow the candidate to finish the paper. The case is referred to the Examination Board, which may award zero marks for the paper or the module and refer the matter to the Disciplinary Committee.

7 Release of Results

Semester results are released on the Student Portal about three weeks after the last paper. Results are withheld from students who have outstanding fees or library fines above 50 dollars until the amount is paid.
